 @MaximusRax

 brijesh-gautam

Motivated third-year Computer Engineering student at Viva Institute of Technology (Mumbai University), eager to leverage technical expertise in software development, backend programming, and web applications. Passionate about building scalable solutions and enhancing user experience through innovative technology..

## SKILLS

### ❖ Languages & Programming:

- Java (OOPs, Swing, JDBC, Servlet, JSP)
- C++ (OOPs)
- Python (Django, Ops)
- PHP (Laravel)
- C# ( .NET, Windows Forms, ASP.NET)

### ❖ Web Development:

- HTML5, CSS, Bootstrap, TailwindCSS, JavaScript

### ❖ Database:

- MySQL, SQL Server, MongoDB

### ❖ Operating Systems & Tools:

- Linux ( troubleshooting, OS installation, Network, Services, process Commands)

## EDUCATION

- ❖ Computer Engineering | Viva Institute of Technology CGPA: 7.4 | 2024
- ❖ XII (HSC) | Viva College of Science and Commerce 83.0% | 2021

## ACADEMIC PROJECTS

### Sanjay – Object Detection Assistant for Visually Impaired

*React Native, HTML, JS, Python, OpenCV, FastAPI*

- Developed a smart assistant app that helps visually impaired people detect surrounding objects using computer vision.
- Integrated OpenCV for object detection and FastAPI for backend processing.
- Built a user interface using React Native and basic frontend tools.

## ACHIEVEMENTS / HOBBIES

- Participated in Innovo SSGMCE'25 Hackathon
- Participated in HackerVerse 2024
- Participated in Smart India hackathon (24, 25)
- 3<sup>rd</sup> place in Viva Internal Hackathon 2024
- Interested in Cybersecurity, how AIML works
